INTERVIEW SUMMARY

Sir:

This Summary is submitted in response to the Interview with Examiner Jones and Examiner Bernatz on January 12, 2005, and to the Examiner's Interview Summary dated January 12, 2005. The Applicants and the undersigned would like to thank the Examiners for their time and assistance.

During the interview the claims of the present application and of U.S. Patent Application Ser. Nos. 09/845,743 and 09/683,114 were discussed. References discussed include: U.S. Patent No. 5,538,774 to Landin et al., U.S. Patent No. 5,972,461 to Sandstrom, translation of Japanese Patent Application No. S63-205817 to Otada, and U.S. Patent No. 6,764,734 to Vierk et al. Agreement was reached that the above amendments overcome these references.

Also discussed during the interview was combining U.S. Patent Application Ser. Nos. 09/846,889 and 09/845,743 into a single application. Further discussed was potentially also

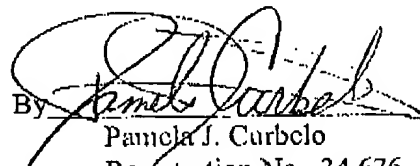

08CN8803-16

combining U.S. Patent Application Ser. No. 09/683,114 into that application. A Supplemental Amendment submitted in U.S. Patent Application Ser. Nos. 09/845,743 combines those three applications.

If there are any additional charges with respect to this Summary or otherwise, please charge them to Deposit Account No. 07-0862.

Respectfully submitted,
